Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews of 35 Species in the Southwest

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are conducting 5-year status reviews under the Endangered Species Act of 35 animal and plant species. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information that has become available since the last review for the species.

DATES: To ensure consideration, we are requesting submission of new information no later than March 4, 2022. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For how to request or submit information, see Request for Information and How do I ask questions

or provide information? in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: For information on a particular species, contact the appropriate person or office listed in the table in the **SUPPLEMENTARY INFORMATION** section. For general information, contact Beth Forbus, by telephone at 505-248-6681; or by email at Beth_Forbus@fws.gov. Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION:

Why do we conduct a 5-year review?

Under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal

Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review. For additional information about 5-year reviews, refer to our factsheet at <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>.

What information do we consider in our review?

A 5-year review considers all new information available at the time of the review. In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been implemented that benefit the species;

(D) Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA); and

(E) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Which species are under review?

BILLING CODE 4333-15-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-1283]

Certain Composite Baseball and Softball Bats and Components Thereof; Commission Determination Not To Review Two Initial Determinations Granting Complainant's Motion To Amend the Complaint and Notice of Investigation To Add a Respondent and Extending the Target Date for Completion of This Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission (the "Commission") has determined not to review two initial determinations ("ID") issued by the then-presiding, former chief administrative law judge ("CALJ") granting the complainant's motion to amend the complaint and notice of investigation to add a new respondent (Order No. 8) and extending the target date for completion of this investigation to May 2, 2023 (Order No. 9).

FOR FURTHER INFORMATION CONTACT: Carl P. Bretscher, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205-2382. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission's electronic docket system ("EDIS") at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal, telephone (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on November 2, 2021, based on a complaint filed and supplemented by Easton Diamond Sports, LLC of Thousand Oaks, California ("Easton"). 86 FR 60468-469 (Nov. 2, 2021). The complaint alleges a violation of section 337 of the Tariff Act, as amended, 19 U.S.C. 1337, based on the importation, sale for importation, or sale in the United States after importation of certain composite baseball and softball bats and components thereof by reason of infringement of one or more asserted claims of U.S. Patent No. 6,997,826. *Id.*

The complaint further alleges the existence of a domestic industry. *Id.*

The Commission's notice of investigation names Juno Athletics LLC of Aventura, Florida ("Juno"); Monsta Athletics LLC of Calimesa, California ("Monsta"); and Proton Sports Inc. of Scottsdale, Arizona as respondents. *Id.* at 60469. The Office of Unfair Import Investigations is not participating as a party to this investigation. *Id.*

On November 30, 2021, Easton moved pursuant to Commission Rule 210.14 (19 CFR 210.14) for leave to amend the complaint and notice of investigation to add TianChang Zhengmu Aluminum Co., Ltd. ("TZA") as a respondent because TZA is allegedly [] composite softball and baseball bats and components thereof, *e.g.*, handles and barrels. On December 9, 2021, Monsta filed a response stating that it did not oppose Easton's motion, provided the target date is extended. No other response was filed.

On December 28, 2021, the CALJ issued the first of the subject IDs (Order No. 8) granting Easton's motion on the basis that a single proceeding will promote judicial efficiency, conserve Commission's resources, and best serve the public interest. Order No. 8 at 2 (Dec. 28, 2021). The subject ID further agrees with Monsta that a two-month extension of time is appropriate, which the ALJ addressed in a separate ID. *Id.* at 2 n.5.

On December 29, 2021, the former CALJ issued the second of the subject IDs (Order No. 9) pursuant to Commission Rule 210.51 (19 CFR 210.51), extending the target date to May 2, 2023. Order No. 9 at 1 (Dec. 29, 2021). Order No. 9 also reschedules the evidentiary hearing to October 3-7, 2022, and the deadline for issuing the final initial determination to January 3, 2023. *Id.*

On January 5, 2022, Easton filed a motion to terminate TZA by withdrawing the complaint against it. Easton also moved for reconsideration of Order Nos. 8 and 9 as moot and to stay all proceedings with respect to TZA. On January 18, 2022, Monsta and Juno filed responses in opposition to Easton's motion. On January 20, Easton filed a motion for leave to file a reply to Monsta's and Juno's oppositions.

On January 5, 2022, Easton filed a petition for review and vacatur of Order Nos. 8 and 9 in view of its motion to withdraw its complaint with respect to TZA and to terminate TZA from this investigation.

On January 12, 2022, Monsta filed an opposition to Easton's petition for review. No other response to Easton's petition was filed.
